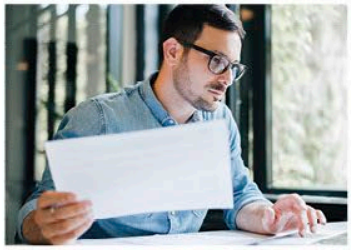
myGO Onboarding

The Future Employee Experience is Here Today

WORKFORCE MANAGEMENT MADE EASY

Payroll and HR products in one consolidated program - anywhere, anytime.

Onboarding is an arduous process. A lot of people and a lot of paperwork are involved to bring on a new team member. With different departments needing different forms and different types of confidential personal information. That is a lot to keep up with, especially in today's remote work environment. With the new MyGO Onboarding, the process becomes easier, streamlining the movement of documents into a digital system that can be accessed via mobile, tablet or desktop. Employers can customize the onboarding experience to fit their company message and company culture, allowing for a new employee to get a great first impression. Forms, documents, policies are all kept in one central location, allowing easy and secure access by both employees and employers with the necessary information flowing directly into the payroll and HCM software.



- **Streamlined Process - information flows directly and securely into payroll and HCM software**
- **Device responsive - "Bring Your Own Device"**
- **Customizable - configurable process to fit your company's needs**
- **Millennial friendly technology - convenient with instant access**
- **Intuitive - easy to use for both employers and employees**
- **eSign Documents - reduce the need for physical copies**
- **Central Location - everything in one place**
